3. MSM & Mercator Swiss-Living

The product "Swiss-Living" by Mercator (www.mercator-management.de) aims at obtaining a right of residence and employment in Switzerland for wealthy individuals all over the world.

This goal is reached by the following procedure: Individuals, who wish to live in Switzerland, have to present to Switzerland an economic advantage, as for example in the form of the creation or the preservation of jobs: By the acquisition of a Swiss enterprise the foundation and the most important prerequisite for living and working in Switzerland is created. The client, receives a full-service-package including legal and administrative work, the whole acquisition procedure and the management of the company during five years.

The procedure for this purpose in a summary is the following:

1. Client contacts MSM (Phone for Russian speaking clients: +41 269 21 55 or swissconnect@msmgroup.ch) and confirms that he is willing and able to invest EUR 2.5 mio or more to acquire an enterprise in Switzerland.
2. Personal meeting in Switzerland, exchange of information
3. Research by MSM about whether client meets in principle the requirements for the acquisition of a suitable enterprise in Switzerland and therefore is principally entitled to receive a residence and a work permit
4. Signing of three contracts (skeleton contract, Mercator-Fund-contract and MSM-services-contract)
5. Client transfers EUR 0.5 mio to a Mercator-Fund-account at a Swiss Bank, established exclusively for client. From this amount, all the arising costs are paid within the next five years (beginning with the search for a suitable enterprise, the costs for the enterprise's rating, the appointment of a new management, up to the controlling of the enterprise and the successful residence permit, et cetera).
6. The contracts have a minimum duration of five years. Client or his trustee will become the only limited partner of a „Mercator-MittelstandsInvest GmbH & Co. KG“ registered in Germany.
7. Within the time period of twelve months Mercator will propose at least two enterprises at a purchase price of EUR 2 mio or more (limit given by client).
8. Should client reject all proposed enterprises, the contracts will end. The paid EUR 0.5 million will be refunded, deducting an overall reimbursement of costs and expenses of EUR 75'000 plus 19% VAT.
9. Parallel to the acquisition procedure, the application for the residence and work permits will be submitted, and only after a positive official reply from the Swiss official authorities the enterprise will be purchased.
10. The enterprise may then receive a new management and it will permanently be controlled and directed by Mercator within the next five years. The expected return on investment is between 5% and 15% per year
11. MSM and Mercator will feel honoured to take on client's other tasks beyond the above-mentioned services like for example the search and the finding of real estate, legal work for the target etc.
